Your Lawn

A well made lawn will last a long time, so it pays to be thorough. Good seed costs but a few cents more and we are sure you will thank us if you use our especially prepared Lawn Grass Seed.

All of our KENTUCKY BLUE GRASSES are treated with Du Pont Arasan. Treated seed produces stronger, healthier plants with better root systems, and gives protection against soil-borne organisms that cause seed rot and poor germination. It protects seedlings from blights that cause thin stands and weak plants.

A TRIAL WILL CONVINCE YOU.

LAWN GRASS SEEDS

Making a lawn is a job that most of us only have to undertake once or twice in a life-time. We build lawns for permanence, and for that reason we

SHOULD go about it with the utmost care. The soil should be carefully prepared before planting the seeds.

It requires about 10 pounds of Blue Grass seed to 1,000 square feet (Bent seed about 5 pounds). Fertilize with a good commercial fertilizer such as Vigoro, Milorganite, Loma or Ivy, using 100 pounds to 2,500 square feet and cover with Peat Moss. (1 bale covers about 800 square feet.)

We are always pleased to help you with your lawn problems.

These prices are **NOT PREPAID**. If wanted by mail, include postage at the regular zone rates. **NO SALES TAX ON SEEDS.**

The SIMPSON SEED CO., warrants to the extent of the purchase price that seeds, plants or bulbs sold are described on the container within recognized tolerances. Seller gives no other or further warranty, express or implied.

Giant SPENCER SWEET PEAS

Our Sweet Pea seeds are the best obtainable from W. Atlee Burpee Company and other reliable growers, and produce giant ruffled flowers, usually three and four to a stem.

CULTURE. Plant as soon as ground is workable in the spring, one inch deep and ½ inch apart in a furrow 4 inches deep. When plants are about 2½ inches tall, thin out to 3 inches apart, and gradually fill in the furrow to ground level as plants grow. Soaking the seed in a solution of Nitragin bacteria will greatly increase size and brilliance of blooms.

Perennial FLOWER SEEDS

Perennial plants recommend themselves to most gardeners, because once established, they practically take care of themselves, and come back each season for many years. However, generous plantings of annuals is desirable because the blooming season for most perennials is limited, whereas annuals bloom throughout the summer.

Each 50c; 3 for \$1.35; 6 for \$2.50. Unless Otherwise Priced. If by Mail, add postage: 3 plants 20c; 6 plants 35c.

Water Keeps Your Plants Alive

Remember—plants that go thirsty also go hungry—even the richest soil cannot supply food without water to dissolve the food elements. And because plants literally eat with their small hair roots you must put their water supply deep into the soil for proper feeding.

Attached to your garden hose the IRI-GATOR puts the water where it does the most good—at the plant roots. Three times as fast as the conventional cloth soaker or usual sprinkler—water flows freely but gently through the IRI-GATOR. Little or no soil washing and with no wet foliage to invite disease.

Nothing to wear out or to become loose. No screws or moving parts—sturdy aluminum and brass with "Spun-Together" construction. Built to stand garden usage and the weather. The IRI-GATOR is "Garden Tested and Approved" by the Men's Garden Club of America and thousands of good gardeners everywhere. Nearly 100,000 in use.

CAT BOOK. "Know Your Cat." 250 pages of well written knowledge about cats. Supplement with 16 pages of illustration. \$2.50.

KITTY LITER. Kitty litter is a specially processed material which provides a new and better solution to a problem confronted by owners of cats. It does away with the daily, unpleasant "messy sand box routine". Unlike sand, it dries and deodorizes. You will find it much more economical to use than sand; it need not be changed every day, so you will find it substantially lower in cost. We suggest a Kitty box or pan 15 or 16 inches in diameter. At the end of every other day you will see that the droppings have dried so thoroughly that they can be removed with a Kitty Litter Scoop and disposed of easily. 5 lbs. 70c; 10 lbs. \$1.30; 25 lbs. \$3.00; 50 lbs. \$5.50.
